

VIRGINIA DEPARTMENT OF TRANSPORTATION

*TRAFFIC ENGINEERING DIVISION*

MEMORANDUM

GENERAL SUBJECT:  Traffic Signs		NUMBER: TE-238
		DATE: May 4, 1993
SPECIFIC SUBJECT:  VW-13 Bridge End Warning Sign		SUPERSEDES:
DIRECTED TO:  District Administrators	SIGNATURE:  <i>J.L. Butner</i>	

Due to a recent request from Culpeper District, Traffic Engineering Division has decided that the VW-13 warning sign shown on page 215 of the Virginia Supplement to the MUTCD shall now be fabricated with 1 7/8" corner radii. This will eliminate the stocking of two-30" sign blanks, one with rounded corners for other warning signs and one without rounded corners for this sign.

This change is effective for all new VW-13 signs upon the depletion of the existing stock of the non-rounded signs and sign blanks.
